Staff Sergeant Torin Kerr s goal is to keep both her superior officers and her troops alive as they face missions throughout the galaxy. But she s been sidelined with endless briefings and debriefings for a while, so she jumps at the chance to go to Crucible-the Marine Corps training planet-as temporary aide to Major Svensson. The major was reduced to little more than a brain and spinal cord in his last combat, and now he and his doctor are eager to field test his new body. It s supposed to be an easy assignment -- after all, Crucible was set up to simulate battle situations so recruits could be trained safely. But Torin s barely on-planet when someone starts blasting the training scenarios to smithereens.
