Excerpt from Reports of Mine Inspectors: For the First, Second and Third Districts of West Virginia, for the Years 1895 and 1896 Sir: - I have the honor to present to you for your consideration, my report as Inspector of Mines, for the First District of West Virginia, for the year ending Juno 30th, 1805. I have made two visits through the district during the year, including mines that were in purview of the low, that were in operation, giving especial attention to these mines that were considered dangerous. There is a general improvement in the methods of work, ventilation, and drainage, throughout the District for the past year. Fans and furnaces have been added, which greatly improve ventilation. Also, ropes and motors for hauling the coal, have been placed at several of the mines. There have been no labor troubles during the past year. All my instructions for the safety of both men and mines, have been promptly and cheerfully complied with. There is a slight increase of the production of both coal and coke throughout the District, over my last report. I am sorry to note that there is an increase of the fatal accidents of the past year, over the previous one.
