

## Transition Metal Ions Doped ZnO Nanopowders

Filesize: 5.62 MB

### ***Reviews***

*If you need to adding benefit, a must buy book. This really is for all who statte that there had not been a well worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## TRANSITION METAL IONS DOPED ZNO NANOPOWDERS

DOWNLOAD

LAP Lambert Academic Publishing. Paperback. Condition: New. 136 pages. Dimensions: 9.0in. x 6.0in. x 0.3in. Intensive research on semiconductor nanomaterials has increased remarkably during the past years due to their unique characteristics. Wide-band gap oxide semiconductors have occupied the forefront because of an increasing need for short wavelength photonic devices, high-power, high-frequency electronic devices. Doping with proper metal elements via introducing acceptor or donor in host material is an effective approach to tune the materials with requisite properties. Among different magnetic semiconductor materials, 3d transition metal doped ZnO has received maximum attention due to the observation of room temperature ferromagnetism with suitable magnetic dopant ions. Therefore, selection of proper doping element in ZnO has become an important route for enhancing and controlling electrical, optical and magnetic performances of nanomaterials. The objective of the present investigation is to synthesis, structural, spectroscopic and magnetic properties of transition metal ions doped ZnO nanopowders by solid state reaction with sonochemical assistance. The synthesized powders are characterized by XRD, SEM, Optical absorption, PL, FT-IR, EPR and VSM techniques. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
