

## Topics In Advanced Econometrics: Volume II Linear and Nonlinear Simultaneous Equations (Paperback)

Filesize: 8.52 MB

### Reviews

*This pdf is fantastic. It really is basic but shocks inside the 50 % in the pdf. I realized this pdf from my i and dad encouraged this pdf to discover.*

Springer-Verlag New York Inc., United States, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This book is intended for second year graduate students and professionals who have an interest in linear and nonlinear simultaneous equations models. It basically traces the evolution of econometrics beyond the general linear model (GLM), beginning with the general linear structural econometric model (GLSEM) and ending with the generalized method of moments (GMM). Thus, it covers the identification problem (Chapter 3), maximum likelihood (ML) methods (Chapters 3 and 4), two and three stage least squares (2SLS, 3SLS) (Chapters 1 and 2), the general nonlinear model (GNLM) (Chapter 5), the general nonlinear simultaneous equations model (GNLSEM), the special case of GNLSEM with additive errors, nonlinear two and three stage least squares (NL2SLS, NL3SLS), the GMM for GNLSEIV, and finally ends with a brief overview of causality and related issues, (Chapter 6). There is no discussion either of limited dependent variables, or of unit root related topics. It also contains a number of significant innovations. In a departure from the custom of the literature, identification and consistency for nonlinear models is handled through the Kullback information apparatus, as well as the theory of minimum contrast (MC) estimators. In fact, nearly all estimation problems handled in this volume can be approached through the theory of MC estimators. The power of this approach is demonstrated in Chapter 5, where the entire set of identification requirements for the GLSEM, in an ML context, is obtained almost effortlessly, through the apparatus of Kullback information. Softcover reprint of the original 1st ed. 1994.
